DETAILED ACTION

1. Prosecution on the merits of this application is reopened on claim 1 considered unpatentable for the reasons indicated below.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 rejected under 35 U.S.C. 102(b) as being anticipated by Gerlat (US 3,233,093).

Gerlat shows in Fig.2 a semi-transparent plastic hood [30] having an opening formed for receiving a light bulb [29] therein. The opening has an inner surface portion adapted for contiguous contact with a corresponding portion of the light bulb [29]. The plastic hood [30] must inherently be soft and removable to fit over the light bulb [29]. Further, the plastic hood [30] must have some heat conductible property or else the light bulb [29] would overheat.
